# Analyzing Your Inspiration Board Pictures

Spend some time looking at all the pictures you have on your inspiration board. With close analysis, you should see a theme and start to define your own preferences. A style is the unique combination of the following elements. You can create your own signature style. The key is being purposeful in your combinations. Choose 6 pictures and do a full analysis of the design elements in each.

#### Choose Your Color Palette Preferences:

Refer to your Design Style Sheet results for a typical color palette of those design styles. Are they reflected in the pictures you chose?
