"The Secret Weapon" Storage Worksheet

This activity will help you think through WHERE you want to store typically used items. You may discover you use
items in a different room than they are stored which may contribute to the reason why things aren't put away in a
room.

Step 2: Compare checked items to those you have listed on the Zone Worksheet and add item and the size of storage needed if not listed.

Step 3: Analyze and circle checkmarks that need to be moved to a different room.
